 access Learning

Access LMS ranked #1 in the UK and Top 5 Globally

Set apart from other learning solutions by its ease of use, configurability and security, Access Learning underpinned by the Access LMS and a comprehensive suite of courses, enables a culture of continuous learning.

Why should you consider getting an LMS?

An LMS (Learning Management System) is an integral part of any firm, ensuring that the process of delivering online training and any subsequent reporting is simple and effective.

Time is money and eLearning can alleviate the ever growing costs and inefficiency of face-to-face training. Not only that, but eLearning is proven to increase knowledge retention by up to 65%. An LMS takes away all of the difficulties in getting your workforce up to speed.

Deliver a continuous learning culture with Access Learning

Access Learning delivers a wealth of industry-leading training courses and enables a culture of continuous learning with content that is accessible from any device, anywhere, at any time.

All courses are maintained by our digital learning team and their Subject Matter Experts and will help firms train their staff no matter where they are on compliance, legislation, regulation and law.

On-the-go access

Deliver learning content anytime, anywhere and on any device with the free Learning Path app. Launch and complete activities online, or download to access certain content offline.

Learning Systems Report 2020

Access LMS
#1 LMS in the UK
Top 5 LMS globally

Great! But why Access Learning?

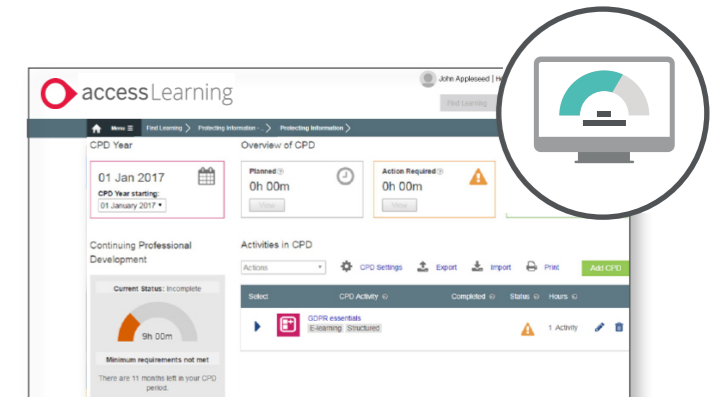

Access Group and our award-winning LMS is built for use by administrators and end users alike, ranking as the #1 LMS in the UK.

Set apart from other Learning Management Systems by its ease of use, configurability and security, our Access LMS has helped thousands of firms to take control of their corporate learning. Maximise engagement with a clear, easy-to-navigate user interface that holds all your learning material in one central location.

Powerful reporting & audit tools

Quickly highlight knowledge gaps or areas of non-compliance by using the integrated report generator to identify how staff are performing against their training requirements, with the ability to drill down to an individual level to see where action is needed.

Continuing Professional Development (CPD) tracking

A 20 hour annual scheme is pre-set on the platform with CPD time accrued from any online activities being automatically logged. Users can also log any offline time. The home screen features an indicator showing their progress, with a more detailed dashboard also available to view.

Other features include:

Enrolment rules for assigning learning

Produce certificates for courses taken

Diagnostics and assessments (certain courses only)

Automated email rollouts

Manager's dashboard

eCreator authoring tool

Top and tail content with your firms information

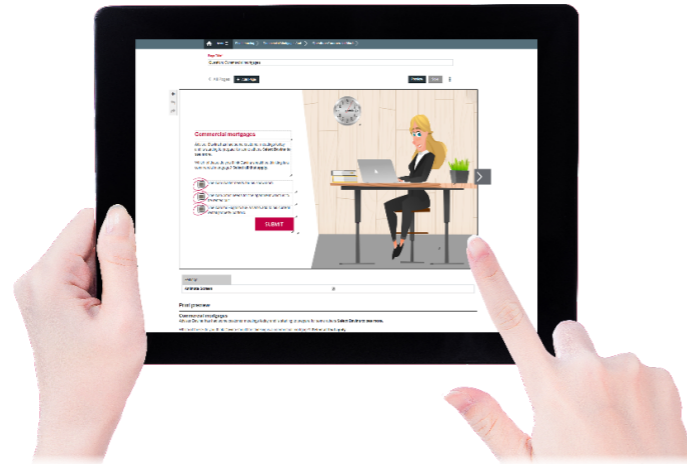

Extensive content library

eCreator

Our user-friendly eLearning authoring tool

Use our integrated authoring tool, eCreator, to build your own micro-learning modules to address your firm's policies and procedures and create pathways tailored to your specific needs.

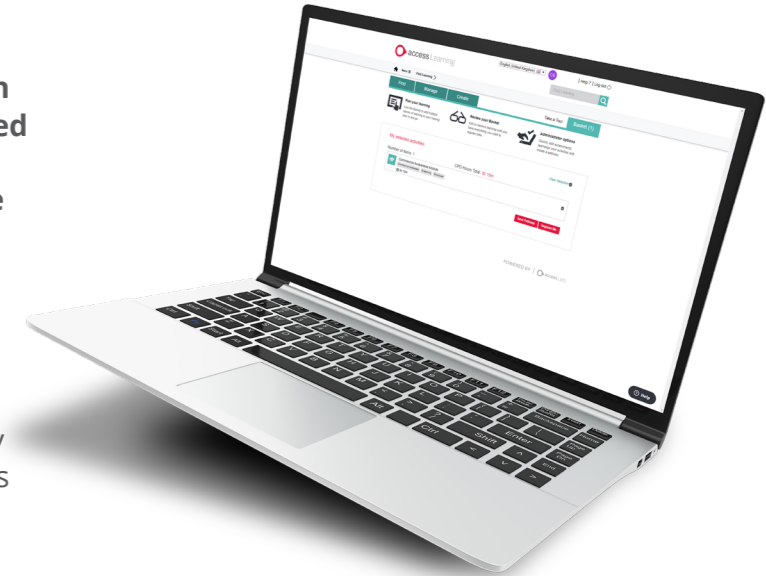

eCreator offers an unlimited licence for as many course developers as you wish to use the tool. All courses built with eCreator are mobile compatible, and you can even create and edit them on your tablet.

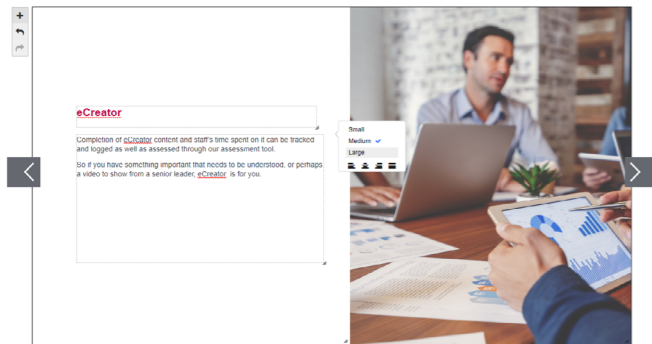

Identify knowledge gaps with diagnostic assessments

With the ever increasing need to train staff on legal, legislation and regulation topics the need for robust training processes has never been greater. It is therefore important to recognise your learners individual levels of knowledge, which will save your firm valuable time and maximise learner engagement.

Create diagnostic assessments across groups of topics (certain courses only) to identify individual knowledge gaps and let the system automatically assign only the learning activities your employees need to complete to demonstrate competency in each relevant topic. As an administrator you can control the number of questions and the pass mark.

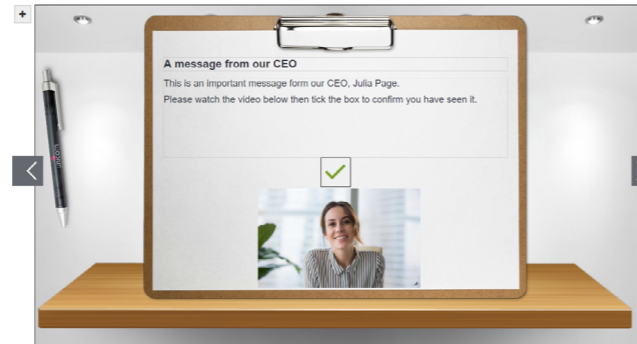

Our Diagnostic Dashboard shows performance and status details for pathways containing diagnostic and/or pathway assessments. Using Red, Amber, Green colour coding, the performance graph shows the number of learning activities where learners scored < 40%, between 40% and 70% and more than 70%. The status graph shows the number of activities which have been assessed, versus the number pending.

Flexible

eCreator allows you to transform knowledge dumps (e.g. PowerPoint slides) into digestible chunks that look great, flow naturally, and are easy to maintain. Upload content and images, and then resize, place and edit with our build tools that allow you to visualise each page as you're working.

Intuitive

With access to our full range of pre-made templates, it's easy to create courses instantly. Alternatively, if you have a specific message, policy, process, product or procedure that you want to include on one of our 'off the shelf' courses, eCreator can do that too.

Features include:

User-friendly interface

A variety of pre-made templates

Pop-ups for extra information

Quiz questions for reinforcement

Import images, video and text

Animate page elements

Embed YouTube videos

Print to PDF

Access to our comprehensive library of eLearning content

Our Access Learning library has been developed by Access companies Safety Media and MicroLearn or by other industry expert partners such as RESILIA Frontline, Video Arts and Time2Study, to ensure you are getting the best available eLearning courses for your firm.

Taking the best principles of engagement to deliver practical, role-relevant learning and interactive case studies, this is learning that sticks.

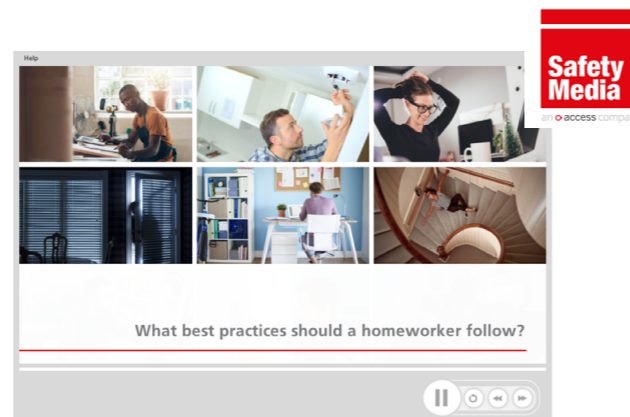

RESILIA Frontline
RESILIA Frontline provides your people with GCHQ-approved courseware for cybersecurity and data protection awareness training. Written and designed by cybersecurity experts, the modules help your people sustain cyber resilient behaviours across your firm.

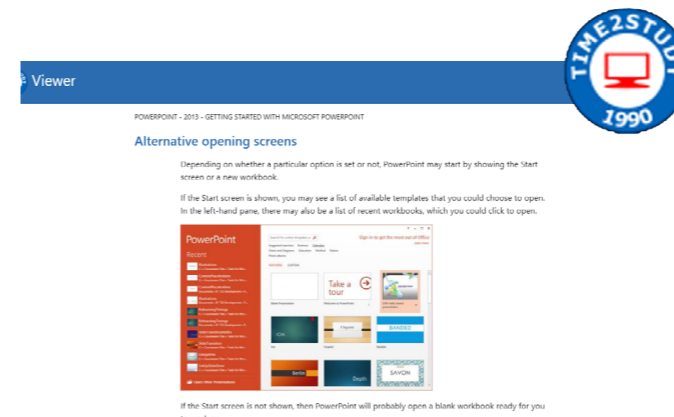

Video Arts
The Video Arts library of online, interactive courses is designed as a 'grown-up' self-study resource to help learners reflect on and apply what they've learnt, not just absorb lots of 'read-next-read-next' information. Your learners will be entertained whilst their behaviours are changed over time.

MicroLearn
MicroLearn's Soft Skills library is made up of 10 suites, covering an increasing range of essential professional skills. Soft skills development proves invaluable to firms who strive to be increasingly dynamic, interconnected and flexible, in order to attract and retain talented employees.

Safety Media
With over 70 ROSPA approved courses to choose from, this library will help you achieve your health and safety compliance goals efficiently and effectively. DSE, Manual Handling, Fire Safety, and so much more is covered in this specialist health and safety e-Learning catalogue.

Time2Study
This catalogue of interactive eBriefings covers the most popular Microsoft business applications. Delivered in a linear course format representing beginner, intermediate and advanced user levels, they have been designed to provide learning through examples and case studies.

Bookboon
Bookboon is the "Netflix" of eBooks and has more than 1,500 books in its full catalogue on subjects as diverse as *Human Resource Management* to *Corporate Finance* to *Communication and Presentation* are now bite-sized and have been optimised for a one to two hour read.

Suites and Courses include:

Safe Device Use
(RESILIA Frontline)

Social and Corporate
Responsibilities
(MicroLearn)

First Aid in the
Workplace
(Safety Media)

Customer Service
(Video Arts)

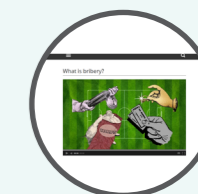

Protecting Information
(RESILIA Frontline)

Workplace Wellbeing
(MicroLearn)

Environmental
Awareness
(Safety Media)

Compliance
(Video Arts)

With over 100 more...
