

VISIBILITY CONTROL ACCURACY

**GIVING YOU THE FREEDOM
TO DO MORE**

For construction firms choosing to invest in software and solutions, it's clearly vital to work with a market leading technology provider that can meet your specific needs. It also smooths the process if your chosen provider also understands the nuances of the construction sector too.

At Access Construction you get both.

We have worked with countless construction firms – from large scale building contractors to smaller, specialist trades and consultants. This relevant experience means that we not only understand how digital solutions can streamline and enhance activities specific to your sector - such as bidding and valuations, estimating and sub-contracting, site management and materials cost management. As technology specialists, we have also developed robust digital solutions that bring benefits to every business: think payroll, compliance, finance, information management. The list is long.

So as well as our market leading EasyBuild ERP and ConQuest Estimating solutions, you can also rely on Access for a whole host of solutions to support the day-to-day challenges facing your business.

WHAT DOES YOUR BUSINESS NEED TO WORK MORE EFFECTIVELY?

GAIN GREATER CONTROL OVER EXPENDITURES AND BUDGETS ON SITE

With Cost Value Reconciliation (CVR) being fundamental to accurate accounting and statutory compliance within the construction industry, that works on very tight margins. Access Construction ERP software [EasyBuild](#) has a CVR solution that gives you greater control over expenditures, budgets and is scalable to support the growth of your business.

ENHANCED TOOLS FOR FASTER, MORE EFFECTIVE PEOPLE MANAGEMENT AND PAYROLL

Discover how our [HR / Payroll](#) software can make managing and paying your staff and contractors more streamlined and accurate - first time, every time.

BETTER MANAGEMENT OF SKILLS TRAINING INCLUDING AUDITABLE RECORDS

Ensure all your sites and staff are protected and always up-to-date on the latest health and safety processes and training using our [H&S E-Learning](#) software.

DIGITAL TRACKING AND COMPLETION OF COMPLIANCE ACTIVITIES INCLUDING DATES AND ALERTS

Over 600 organisations already manage risk effectively using our [compliance](#) tools and health and safety software.

OPPORTUNITIES FOR SITE STAFF TO INTERACT QUICKLY VIA MOBILE AND SMART TECH

Why wait until individuals are physically in the office to collate data from timesheets, requisitions, goods received and jobs completed - when information can be input in real time via our [mobile apps](#).

MORE SECURE AND ACCESSIBLE CLOUD-BASED SOLUTIONS

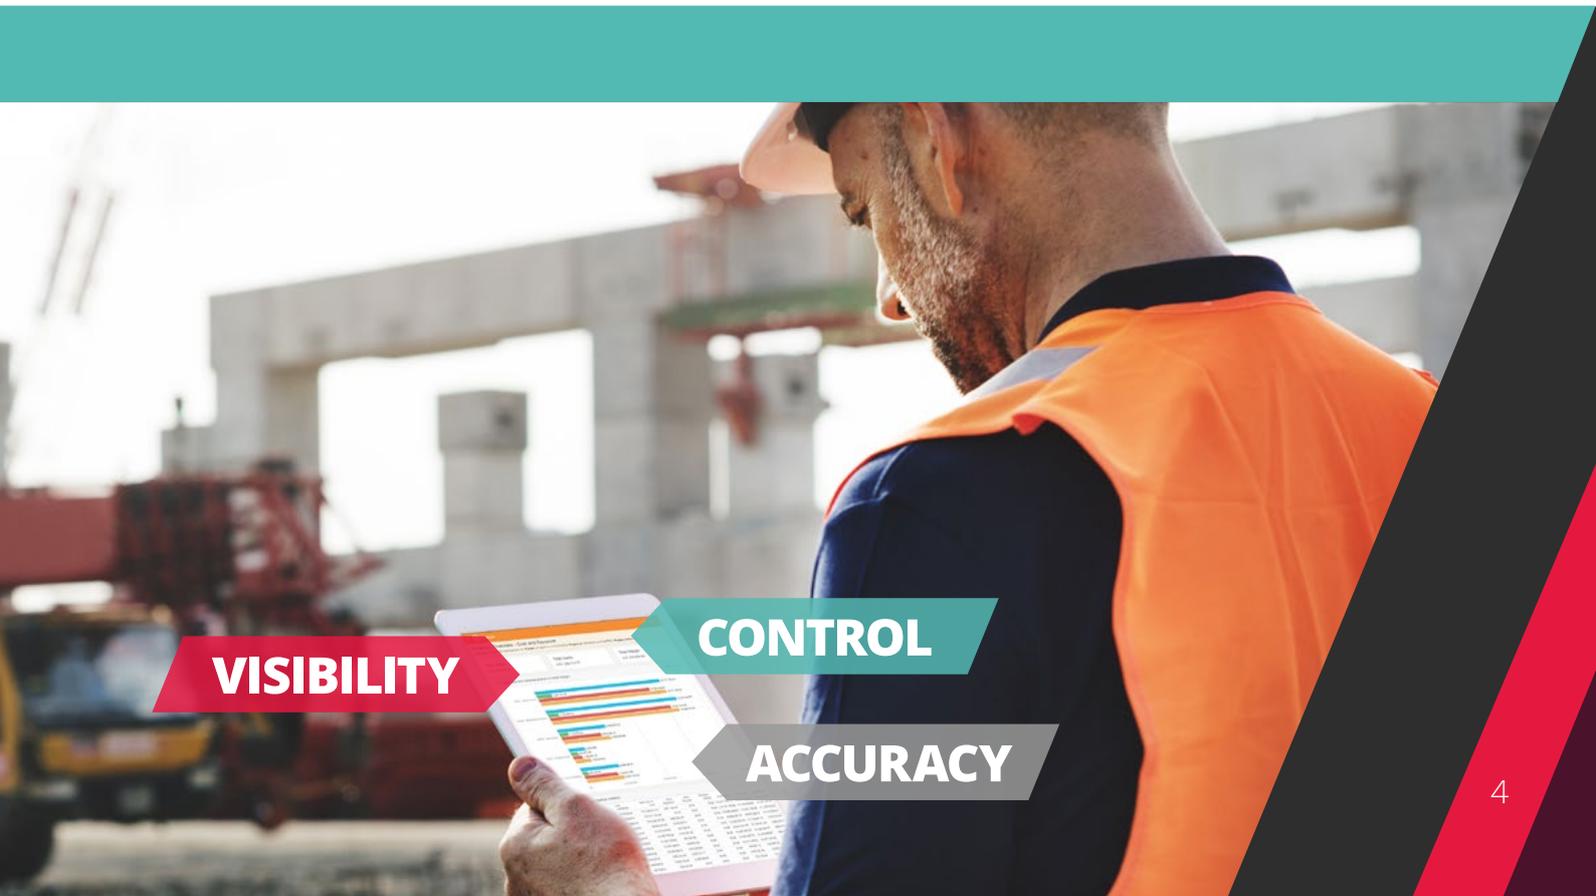

By accessing our construction and business solutions via our [cloud hosting](#) service, you will enjoy enhanced flexibility and security and enable your staff to access the systems and information they need from wherever they are.

IMPROVED INTERACTION BETWEEN DEPARTMENTS WITH ONE VERSION OF THE TRUTH

A key advantage of choosing to work with the Access Group is that our products work seamlessly together thanks to Access Workspace – and your business immediately benefits from integrated solutions that enable your people to do more.

MORE STREAMLINED AND ACCURATE PURCHASING AND INVOICING

The huge volume of administration tasks completed daily in every construction business means that [purchase and sales automation software](#) can deliver significant benefits from day one - think improved efficiency, accuracy and productivity.
