

Manage your staff in the cloud

Simple and powerful software to streamline HR processes

Why choose aCloud HR?

Quickly implemented and user friendly, Access aCloud HR streamlines everyday processes and provides employees with immediate access to key HR information.

Access aCloud is brought to you by the Access Group, a company with over 20 years' experience delighting businesses with innovative solutions that work across departments. The needs of our 7,000 UK customers are at the centre of all we do, which is why our team deliver a first-class customer experience.

✓ Key benefits

Manage your talent

A dedicated training and appraisal tool transforms how you manage performance: set alerts for reviews to be carried out, track staff progress and allow managers to set individual objectives.

Nurture your workforce with an automated review process proven to enhance staff performance.

Secure document access

Central document management provides a singular and secure storage place for all your company's policy documents and employee records. Access and search your database in seconds, safe in the knowledge your data is fully backed up by an ISO 27001 certified vendor.

Regularly updated with the latest changes to employment law, aCloud HR helps you implement processes to remain compliant.

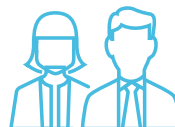

Reduce costs and make informed decisions

Seamless electronic data capture eliminates the need for spreadsheets and unnecessary paperwork, leaving you free to focus on organisational goals.

Easy-to-use dashboards allow you to quickly turn large quantities of data into reports and charts. Use built-in reports for absence, salary and more, or create custom reports tailored to your needs.

Empower your employees

Give staff access to a self-service portal that allows them to log and document information in real time. Key personal information can be updated, training can be requested and company policies viewed all from a single source.

Remove barriers and improve employee engagement with a platform that can be accessed from anywhere, at any time, on any device.

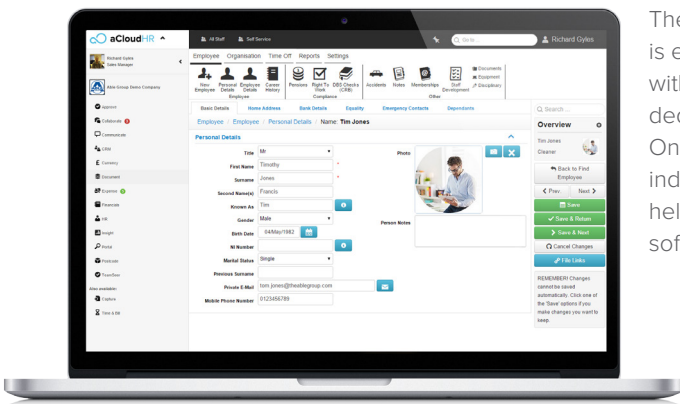

Top features

- Online storage for employee documents, company policies and organisational charts
- Dedicated training and CPD module to nurture your talent
- User friendly dashboards to collate and analyse key data
- Self-service portal for employees to view policies, request training and log absence
- Expiry warnings to highlight Right to Work documents in need of updating
- Annual review reminders to ensure progress is tracked and feedback is given
- Accident book where health and safety concerns can be raised and preventative action taken
- Organisational charts to map out the relationships between different parts of your company
- Oversee employee benefit entitlement with a clear view of pension provision and benefit packages

Get up and running in no time

As a cloud-based solution, aCloud HR gives your organisation greater agility by offering software that's easy to install, on-board, and maintain, while keeping infrastructure changes and costs down. The subscription pricing model means you only pay for the modules you use, and can easily adapt to meet the needs of a growing workforce.

The intuitive software is easily used without the need for dedicated training. On-screen help and individual field tips help you navigate the software with ease.
