Access Tax
Release Update 2023.7

Released November 2023.

Enhancements

- **Within ATO Reports we have introduced Retrieve Outstanding Reports which allows an authorised user the ability to view outstanding ATO Reports and initiate the download from the ATO.**
    - **Please note, this is available for the Activity Statement Lodgment Report, with Activity Statement Client & Income Tax Client Reports available as beta in this release.**

- **Added connection functionality for Zap Data Hub which provides rich analytical reporting capabilities & dashboards based upon the Tax Form Details, Client List and the ATO Income Tax Client Report.**

- **The Help section has updated URL's for the Manual and User guides which reflect the rebranding to Access Tax.**

- **Font style of the tax return export has been updated to Arial.**

Minor Defects

- **Resolved an issue whereby after retrieving the Activity Statement Lodgment Report, the check box may not have been available to allow the creation and prefill of the Activity Statements for a client.**

- **Addressed the issue where some users were getting errors in their Tax Return referring to wrong years.**

- **Fixed the issue where the printouts were cutting off sections in D3 of the Work Related Expenses Schedule.**

Security
- **Continuous Security updates applied.**
