access EarlyPay

# Understanding
# On-Demand Pay

How to access your pay, when you need it

# Welcome to the future of payroll

You've began your journey to onboard Access EarlyPay, an excellent decision if we say so ourselves! As we know, these projects often involve various stakeholders, and sometimes those stakeholders weren't involved in the initial decision-making process. With that in mind, we've put together this handy guide to help you understand exactly what Access EarlyPay is and exactly how it can benefit your entire organisation.

## What is Access EarlyPay?

Put as simply as possible, Access EarlyPay allows employees to drawn down a percentage (set by your organisation) of their earned wage, before the day they are traditionally paid.

# How on-demand pay will benefit your employees

On-demand pay is a growing trend in the UK, having already established itself as a mainstay of payroll in the United States. A recent survey of Access EarlyPay users showed that 49% of users are more likely to stay with their current employer, over another employer who didn't offer on-demand pay. The same survey also highlighted that users who had access to on-demand pay were 40% more likely to take on extra shifts! Clearly highlighting the power of Access EarlyPay, not just as an employee benefit but also as a recruitment and retention tool for your HR department.

# Quick and easy set-up

We're not joking when we say it's simple, once you've downloaded the app, simply pop in your registration code, confirm your payroll number, pop in the security code we'll text you and then set a nice secure passcode... that's it!
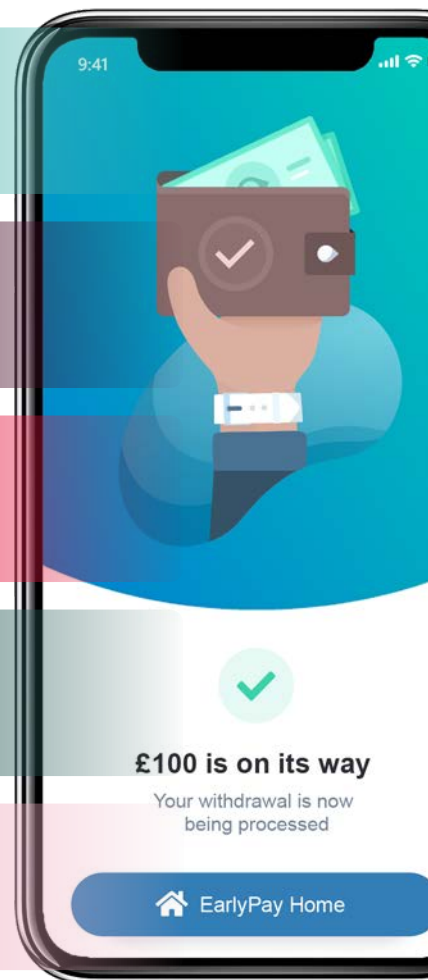

**1** Download the app from the App Store or Google Play

**2** Enter your registration code

**3** Confirm your payroll number

**4** Enter your security code

**5** Create a secure pascode

£100 is on its way
Your withdrawal is now being processed
