

## **CONQUEST ESTIMATING**

Win more business, protect your profits

ConQuest estimating software gives control, improves estimating processes and accuracy, and ultimately helps your Estimators, Quantity Surveyors and Finance professionals to be more effective.

ConQuest shows all your estimates and valuations data in one place – and built-in functionality will improve your back office productivity, efficiency and accuracy. The end result is improved margins and profitability.

# TRANSFORM YOUR ESTIMATING PROCESS

## BILL OF QUANTITIES

Easily manage or build your own Bill of Quantities and import or export data with ease.

## ON-SCREEN TAKE OFF

Fast and accurate 2D and 3D measurements and data extraction without the need for manual data input.

## QUOTE COMPARISONS

Automatically create comparison sheets for each trade and compare subcontractor quotes, however they are presented.

## EFFORTLESS VALUATIONS

Get quick and easy access to all of the estimator's information and create internal and external valuations with different rates and quantities.

## CUSTOMISABLE LIBRARIES

Speed up your estimates and valuations by pulling on over 10 million cost items – include in your cost planning or modify to suit your needs.

## ONLINE ENQUIRIES

Produce document packages for subcontractors and suppliers up to 70% faster and store everything in the cloud for easy access.

## COST PLANNING

Create elemental job analyses based on historical project data and improve pricing accuracy on your current projects.
