

# Access Final Accounts

Release Update

2021.04.01

Version 2021.04.01 released Dec 2021

## Feature Updates

- Data Hub import function is now available for QBO data connectors in [Data Hub](#)

## Minor improvements and fixes

- Resolved the access issue when original admin is signing up multiple cloud products under different tabs within same browser.
- The user is now able to access Admin Center when the role is changed from 'user' to 'admin'
  - For existing issue, the user role needs to be updated to 'user' then to 'admin' again by another admin
