

Adding suppliers to Access Procure Wizard Evo is quick and easy

Below are some of the many suppliers who have joined Procure Wizard Evo over the years, however don't panic if you can't see all your suppliers as we can add a new supplier within a couple of days, or even a few hours if you're in a hurry!

 This symbol indicates an EDI supplier. Electronic Data Interchange (EDI) lets you automatically exchange orders, invoices and credits between Procure Wizard Evo and your own back-office or ERP system. This removes manual processes, cuts human error and gives you and your customers real-time, end-to-end visibility of every transaction.
