

Release Notes

MicrOpay Evo Version 9.5 B1

Introduction

MicrOpay Evo

This bulletin release addresses an STP reporting issue that affected some customers following upgrade to MicrOpay Evo version 9.5.

On-premise (Desktop) Customers

Before updating your MicrOpay Evo software, both the **Payroll** and the **Common** database **must** be backed up. More information about database backup is available in the Help Centre article:

[Backup and Restore](#)

In This Release

- **Error when opening STP Reporting, STP Update and STP Adjustment windows is corrected.**

An issue that caused the following error when opening STP Reporting, STP Update or STP Adjustment windows is corrected. Please note that this error affected a limited number of customers who had STP Phase 1 pay events with a Pending status. The error occurred when MicrOpay Evo attempted to retrieve these events.

If you have not upgraded to MicrOpay Evo version 9.5 yet, we recommend installing 9.5 B1 instead. MicrOpay Evo version 9.5 B1 includes all version 9.5 changes and fixes as well as this fix.

After you upgrade

For our Payroll Online customers

Please note that upgrade of MicrOpay Evo is managed as part of our service to you. You can disregard any comments or instructions that refer to downloading and installing software upgrades.

After the upgrade is installed, you should check that the correct software and database versions are displayed. If the latest version numbers are not displayed, MicrOpay Evo may not have been successfully upgraded.

To check the MicrOpay Evo software version

In the sign in window:

- After the upgrade is installed the version number displayed should be **9.5 B1**.

After you have signed in, you can check the version number by going to **Help > About**.

To check the MicrOpay Evo database version

Your new database version number after the upgrade should be **7613**.

The first time you log in to MicrOpay Evo after installing the upgrade, the payroll and common databases will be updated. You can check the new database version from the Confirm Database Details window.

Ensure you click **Finish** to proceed with the database update.
