

Access Accountants Evo combines next generation AI with proven compliance (Access Tax and Access Ledger) and practice management to solve challenges faced by accounting firms today.

### **Access Tax 2026.4 Release Update**

#### **Version 2026.4 released April 2026**

This release delivers targeted fixes to improve accuracy and stability across Access Tax, including corrections to tax estimate calculations, depreciation worksheet calculations, and user management. Ongoing security and performance updates have also been applied.

#### **Issues Resolved**

- Fixed a rounding issue in the depreciation worksheet where exported PDF values did not match the calculated net profit or loss at Item 15.
- Updated Help menu links to redirect to the new Access Tax Help Centre, including the Knowledge Base, User Manual, and QuickStart Guide.
- Fixed an issue where a Ledger to Tax transfer could make a tax return temporarily inaccessible depending on how client data was configured.
- Fixed a timeout error occurring when adding or deleting users in Access Tax.
- Fixed an issue where the Role option was not being recognised in the Remove Practice Users dialog when users were assigned to clients.
- Fixed a display issue where feedback thumb icons appeared oversized and misaligned in the Lodgable From field.
- Fixed an issue where the Foreign Income Tax Offset unused amount was not being correctly applied against the Private Health Insurance Rebate.

#### **Security**

- Ongoing security and performance updates have been applied.
