

# Access Ledger

## Release Update

### 2023.05

Version 2023.05 released Nov 2023

**The update will include deployment of Access Bank Feeds**, the latest add-on module for Access Ledger to commence an early release program with general availability planned later. Access Bank Feeds will empower users to effortlessly connect and import bank transactions from AU/NZ financial institutes for seamless reporting.

#### Other improvements

- Further updates related to Access Ledger rebranding.
